

B. ADINARAYANA MURTHY

Construction Manager

Phone: +91 8790376125 | Email: bamurty@gmail.com

Location: Rajahmundry, Andhra Pradesh, India

PROFESSIONAL SUMMARY

Experienced Civil Construction Manager with over 30 years of expertise in executing large-scale industrial, infrastructure, commercial and EPC projects. Specialized in pile foundations, pile cap construction, deep excavation, geo-grid works, RCC structures, steel structure erection, MEP coordination, and slab construction of high-rise buildings. Proven ability in project planning, execution, manpower management, contractor coordination, quality control, safety compliance, and timely project delivery.

Strong knowledge of construction methodologies, project scheduling, QA/QC procedures, structural drawings, BOQ management, and site administration. Experienced in handling multidisciplinary teams and coordinating with consultants, clients, vendors, and subcontractors.

CORE COMPETENCIES

- Pile Foundation Works
- Geo-grid & Soil Stabilization
- Structural Steel Erection
- High rise buildings
- MEP Coordination
- Site Execution & Supervision
- Quantity Estimation & BOQ
- HSE & Safety Management
- Billing & Cost Control
- Pile Cap & Raft Foundations
- RCC Structures & Slab Casting
- Pre-engineered Buildings (PEB)
- Industrial & Infrastructure Projects
- Project Planning & Scheduling
- Quality Assurance / QA-QC
- Contractor & Vendor Management
- Team Leadership

PROFESSIONAL EXPERIENCE

Construction Manager – Civil

Apoorva Projects (Nov 2020 – Present)

- Managed complete civil construction activities for industrial and infrastructure projects from excavation to commissioning.
- Supervised major pile foundation works, pile caps, raft foundations, pedestals including bored cast-in-situ piles, pile integrity tests, and load testing for gated community high raised apartments at Rajahmundry.
- Executed retaining walls, heavy RCC structures and managed geo-grid installation and soil stabilization works for ONGC, GAIL at Narsapur and Cuttak.
- Coordinated erection of structural steel works including columns, beams, trusses, platforms, and roofing systems, warehouse construction at Kuppam Schreiber Dynamix.
- Led slab activities including shuttering, reinforcement, embedded items, concrete pouring, curing, and finishing for industrial buildings at Kuppam Schreiber Dynamix and AP government UPHC buildings at Narsapur, Palakole & Bhimavaram.
- Coordinated with MEP teams for embedded conduits, sleeves, trenches, cable routing, and equipment foundations.
- Controlled subcontractors, manpower, equipment deployment, and daily execution activities and conducted client meetings, progress reviews, and site inspections.

- Ensured compliance with QA/QC standards, approved drawings, and HSE requirements.

Project Manager – Saudi Aramco Projects, KSA (Oct 2015 – Sep 2020)

- Managed construction and QA/QC activities for major oil and gas projects.
- Supervised construction crews and subcontractors.
- Conducted project progress meetings with client representatives.
- Ensured compliance with project specifications, quality standards, and safety regulations.

Construction Manager – Saudi Aramco Projects, KSA (2009 – 2014)

- Supervised civil construction activities for multiple industrial Saudi Aramco projects in Saudi Arabia and executed heavy Pile foundations, pile caps, geogrid, soil stabilization works
- Executed construction of high rise building at Hadeed (SABIC plant) at KSA
- Executed erection of Steel structures including columns, beams, braces and roof structures for different Saudi Aramco Projects.
- Coordinated with clients, contractors, and engineering teams
- Monitored project progress, ensured quality compliance and handled scheduling, reporting, and contractor coordination.

QA/QC Engineer – Saudi Aramco Projects, KSA (2002 – 2008)

- Implemented QA/QC procedures, QC plans, and work instructions.
- Prepared inspection test plans and method statements.
- Conducted site inspections and material inspections.
- Coordinated with client inspectors and consultants for approvals.

Site Engineer – Civil Works, KSA (1996 – 2001)

- Supervised civil construction including rebar, formwork, and concreting works.
- Ensured work execution as per drawings and specifications.
- Monitored subcontractor performance, site productivity and verified contractor billing and project progress.

MAJOR INTERNATIONAL PROJECTS

- Replace Gas Compression – Saudi Aramco Abqaiq Plants
- Replace Electrical Equipment – Southern Area GOSPs (Saudi Aramco)
- Shaybah Crude Stabilization Project – Abqaiq Plants
- Upgrade Fire Water Piping System – Saudi Aramco
- Hadeed Steel Plant Expansion – SABIC
- Saudi Kayan Petrochemical Complex – Jubail Industrial City

EDUCATION

B.E. Civil Engineering – Osmania University, 1994
